

Montana Shared Catalog 2009 New Library Application

**APPLICATION DEADLINE FOR ALL LIBRARIES: 5:00 PM (MST),
FEBRUARY 18, 2009**

Application Timetables

LIBRARIES REQUESTING FINANCIAL ASSISTANCE:

Prequalification screening of applications by the MSC Staff and Executive Committee, February, 2009

Applications reviewed by Network Advisory Council in March, 2009

Council presents recommendations for new MSC libraries and LSTA FY 09 funding to State Librarian in April 2009.

State Librarian recommends new MSC libraries and LSTA FY09 budget to State Library Commission for action at Commission's April 2009 meeting

New MSC libraries notified: April 30, 2009

Libraries confirm acceptance: May 15, 2009

Implementation scheduling options for libraries requesting financial assistance:

(School libraries will automatically come under Implementation Schedule 2. If a school library strongly prefers Implementation Schedule 1, the library must reply in the affirmative to Application question #25)

Implementation Schedule, Option 1

Data libraries begin migration: June 1, 2009

Non-data libraries begin retrospective conversion: July 6, 2009

Data libraries go live: December 1, 2009

Non-data libraries go live following retrospective cataloging of 80% of circulating collection, or no later than July 6, 2010

Implementation Schedule, Option 2

Data libraries begin migration: October 1, 2009

Non-data libraries begin retrospective conversion: October 19, 2009

Data libraries go live: March 1, 2010

Non-data libraries go live following retrospective cataloging of 80% of circulating collection, or no later than October 19, 2010

LIBRARIES NOT REQUESTING FINANCIAL ASSISTANCE:

Applications from libraries not requesting financial assistance will undergo the same review schedule listed above. Implementation scheduling will depend upon library type, MSC staff workload and project management scheduling with the vendor.

Purpose

The State Library is offering financial assistance to Montana libraries interested in joining the Montana Shared Catalog (MSC) consortium¹. The MSC runs on the SirsiDynix Symphony integrated library system, presenting a public interface called e-Library. Take the MSC for a test drive:

http://msl.mt.gov/For_Librarians/Montana_Shared_Catalog/default.asp and click on the “Montana Shared Catalog” hyperlink. A java software client, called “Workflows”, is used by library staff supports circulation, cataloging, acquisitions, serials control, academic reserves, material booking, ILL, outreach and other administrative functions. A web-based application called “Directors Station” provides detailed statistics for library staff.

For selected libraries, financial assistance will be provided to pay for SirsiDynix licensing and up to 100 per cent of all data migration costs. These costs are typically limited to SirsiDynix and a data migration sub-contractor (DataMap). Overall, our intention is to assist with funding the start-up costs to the greatest extent possible. For this round of applications, these funds will be awarded in the order the applications merit, as determined by the evaluation process. LSTA grant funds will be paid directly to the vendor on behalf of the joining library for purchasing the selected libraries’ software licenses, data conversion and migration, and project management costs.

Libraries wanting to join the MSC, with sufficient funds of their own and otherwise being qualified, may apply to join the MSC without requesting financial assistance. Approval of all applications depends upon the availability of MSC resources.

About this Program

The Montana Shared Catalog is a statewide project in part sponsored by the Montana State Library and paid for by annual contributions from the participating libraries. MSL works with Montana libraries to ensure the delivery of quality, standards-based, networked library materials and services to all Montanans.

Financial assistance available

Federal Institute of Museum and Library Services (IMLS) Library Services and Technology Act (LSTA) grant funds are available, in three programs². This money is used to pay for all or a portion of, the selected libraries’ vendor startup and licensing costs.

¹ The Network Advisory Council has recommended, and the State Library Commission has agreed, that LSTA funds be used to add libraries to the MSC.

² In the event requests for assistance are less than this amount, funds may be reassigned between larger, middle-sized and smaller library categories of programs, or the assistance amount limits may be altered. Funds, if available, will be allocated to cover the entire library startup costs charged by the vendor.

Program 1—Larger library

- Overview—LSTA funds will be used to assist larger libraries wishing to join the MSC.
- Definition of ‘larger library’—Having both 100,000 or more bibliographic records, and 25,000 or more service area population (or over 15,000 full-time-equivalent students, staff, and faculty). Counts for library systems or consortium are figured as the sum of their individual counts³.

Program 2—Middle-size libraries:

- Overview—LSTA funds will be used to assist middle-sized libraries wishing to join the MSC.
- Definition of ‘middle-sized library’—Having 35,000 to 100,000 bibliographic records, *and* 10,000 to 24,999 service area population (or 5,000 to 14,999 full-time-equivalent students, staff, and faculty). Counts for library systems or consortium are figured as the sum of their individual counts⁴.

Program 3—Smaller libraries

- Overview—LSTA funds will be used to assist smaller libraries wishing to join the MSC.
- Definition of ‘smaller libraries’— Not a “Larger or a Medium Library”.

Eligibility

- Any Montana publicly funded or not-for-profit library, including academic, institutional, public, school, or special library is eligible and encouraged to apply for either the larger or smaller library program. (For-profit libraries are invited to join the MSC, but are not eligible for LSTA funding.)
- Libraries may apply for either the Larger Library program, the Middle Library program, or the Smaller Library program, but not more than one program.
- Applicant libraries must appear in the online Montana Library Directory⁵
- Applicant libraries must have an approved Collection Management Policy on file at the State Library, or have a policy on review at the State Library.
- Applicants must be enrolled as a member of OCLC or agree to enroll prior to July 6, 2009 and maintain enrollment while in the MSC. Information on OCLC membership and enrollment can be found at:
http://msl.mt.gov/For_Librarians/For_All_Librarians/OCLC_Services/default.asp

³ For instance, if a library has 17,000 patrons, and its four branches add 2,000 patrons each, the total count would be 25,000 registered borrowers; likewise this would be figured for bibliographic records. Library systems and consortium are asked to apply as systems or consortium.

⁴ For instance, if a library has 17,000 patrons, and its four branches add 2,000 patrons each, the total count would be 25,000 registered borrowers; likewise this would be figured for bibliographic records. Library systems and consortium are asked to apply as systems or consortium.

⁵ http://msl.mt.gov/For_Librarians/Library_Directory/default.asp

- The reviewers are interested in proposals that:
 - Mutually improve the delivery of library materials and services to library users
 - Further the process of libraries-helping-libraries
 - Increase collegial interaction between participating librarians
 - Promote collaborative and consortium behavior in general
 - Further MSL's goal of developing libraries through networked services
 - Support and improve the Montana Shared Catalog consortium
- Proposals will be scored using the above six measures.

Eligible Program Expenses

Applicants may request support for SirsiDynix-related costs, such as licensing, bibliographic conversion, bibliographic and patron data loads, project management, and for DataMap-related costs, such as record conversion and de-duplication.

Application Review Process

All applications will be screened for compliance with prequalifying criteria by MSC administration. Those applications passing initial screening are then reviewed by the Network Advisory Council. The Council presents its recommendations to the State Librarian for action by the State Library Commission.

Both paper and electronic copies of your library's completed application must be received at the State Library by February 18, 2009, 5:00 p.m. MST. Late or incomplete applications will not be considered.

FAQ ANSWERS

Q: What's the primary value of being a MSC library?

A: By working in partnership with other MSC libraries, you will have the opportunity to more efficiently provide higher value services and better quality content to *your library's users*.

Q: Who is the Montana Shared Catalog?

A: The Montana Shared Catalog is a voluntary consortium comprised, as of Dec 1, 2008, of 91 libraries and branches. MSC libraries are found in sixty-eight Montana communities, serving a combined population of approximately 450,000 and over 250,000 registered users.

The MSC currently includes three academic libraries, forty-six public libraries or public library branches, twenty-seven school or school branch libraries, and thirteen special library members, stretching across the state from Troy to Miles City and Darby to Froid.

Q: Where are these libraries located?

A: Sixty-eight are in Western Montana (75%), ten in Central Montana (12%), nine in Eastern Montana (10%), and four (3%) on the Hi-Line.

There are several other shared catalogs in Montana: The Hi-Line Catalog, OMNI headquartered at MSU, the Montana Public Access Catalog at the U of M, and the Billings and Missoula school districts.

Q: How many librarians are employed in MSC libraries?

A: 360 as of Dec, 2008. MSC librarians work together on MSC-related issues; in many ways you are gaining a large virtual staff at the same time as you and your staff becomes part of the consortium.

Q: I understand the MSC has all types of libraries (academic, public, school, and special). How many of each type of library is in the MSC?

A: Three academic libraries (4%), forty-six public and public branch libraries (51%), twenty-seven school and school branch libraries (29%), and thirteen special libraries (16%).

Q: Who, actually, is driving the MSC?

A: State Library staff work to make the MSC the best shared online library catalog it can be. Having said that:

- Policies are set by the membership, in partnership with MSL
- Budgets are set by the membership, in partnership with MSL
- MSC members assist with training and ongoing support. Training conducted by members that have been designated and approved by MSC administration will have travel expenses reimbursed by the MSC.
- Decisions about implementation details (cataloging, circulation, look-and-feel, etc.) are made by membership committees. The MSC membership has final approval.

Q: What application and computer hardware does the MSC run on?

A: We use SirsiDynix Corp.'s Symphony⁶ integrated library system. The SirsiDynix application itself is about as good as an online public access catalog (OPAC) gets. The patron or student sees what's called an iBistro or iLink, collectively called "e-Library", web-based interface. Library staff have a workstation based client called "Workflows" that interacts with the Helena based servers. Director's Station is a web-based application that runs on its own server, allowing library directors and staff to query the system's history logs for statistical information on circulation, cataloging, acquisitions and user activity.

The catalog runs inside the State's wide area network on two RS/6000 IBM UNIX (AIX) servers; a p650 (production)⁷ and a p615 (development)⁸. A large storage area network (SAN) provides hard disk storage.

⁶ <http://sirsidynix.com/Solutions/Products/integratedsystems.php>

⁷ <http://www-1.ibm.com/servers/eserver/pseries/hardware/midrange/p650.html>

⁸ <http://www-1.ibm.com/servers/eserver/pseries/hardware/entry/p6156c3.html>

A run-time version of Oracle is the database underlying our Unicorn application.

The MSC server and data communications environment is designed to be as industrial strength (in terms of speed, reliability, robustness, and recovery in the event of a problem) as we can afford to make it. This costs money and requires a fair amount of expertise to maintain and operate. We believe we have, in partnership with the State's Information Technology Services Division, that expertise.

Q: Who fixes the MSC when it breaks?

A: MSC staff fixes stuff when it's broken, and tweaks stuff when it's not. You don't have to have on-site staff people to keep your library's online catalog functioning, the server is maintained in Helena.

Our goal is that the MSC is available to your staff and users, except for scheduled downtime for upgrades, large record loads, and maintenance.

For scheduled and unscheduled downtimes MSC libraries have access to the Unicorn system's Offline feature, to circulate materials if the server becomes unavailable.

The system's up and down times are tracked and are available at http://msl.mt.gov/For_Librarians/Montana_Shared_Catalog/Members/incident_display.asp

You may need on-site staff people to keep your local area network running smoothly, your workstations online, and local (often Web) servers running smoothly.

Q: Why should my library join? What's the best part of being a MSC consortium member?

A: The good company you keep and what it lets you do for your patrons. Membership in the consortium is a great opportunity for Montana libraries to improve, through collaboration and cooperation, their delivery of quality library materials and services to their users.

Some MSC members are sharing patrons, materials, and beginning to talk about ways in which they might help each other stretch their materials purchasing budgets. Perhaps most significantly, MSC members share their smarts and imagination—can you imagine having 300 plus brains to pick when you have a problem or a bright idea?

Q: What are some of the drawbacks of being part of the MSC?

A: Once you join the MSC, you've made a long-term commitment. The expense of exiting the MSC is fairly substantial and would be borne by the library wishing to do so. .

You share your library's catalog with over 90 other libraries. It has to work for all. Working in a consortium requires that you and your library commit to communicating with other MSC members, to making operational and

financial compromises, and to occasionally sharing in the consequences of decisions that lack immediate benefit for your library.

Q: How is the MSC financed?

A: All of the annual operational funds come from member libraries. The State Library provides start-up financial assistance to libraries joining the MSC, and operational staff.

Q: What is the MSC budget?

A: The current MSC budget is available at http://msl.mt.gov/For_Librarians/Montana_Shared_Catalog/Members/Budget/budget.pdf

Q: Is there a MSC business plan?

A: The *MSC Business Plan* details MSL's history and future plans and is currently undergoing review and will be posted on the MSC website by July 1, 2009.

Q: How are MSC-related decisions made?

A: Consortium members make every effort to reach decisions by consensus, in the spirit of cooperation. In the event that consensus does not occur, a 75% majority of the membership present at a membership meeting or voting electronically is required. An MSC executive committee and MSC topical working groups attend to operational decisions, and present suggestions to the membership for approval. The Montana State Library Commission makes some funding decisions, with advice from the State Librarian and the Network Advisory Council.

Your library has an equal voice in all the policy and financial decisions affecting the consortium.

Q: How much does it cost to join the MSC?

A: Start-up costs range from \$1,500 to many times this figure for large already-automated libraries. Montana-specific start-up costs have been negotiated with SirsiDynix, toward the goal of making the MSC affordable for all but the very smallest of Montana's libraries. A competitive MSC-start-up assistance program helps libraries afford the initial license and data-related expenses of joining the MSC. Start-up costs not associated with direct vendor costs such as: peripheral equipment (receipt printers, barcode scanners, barcodes) and new library training are paid by the library and included in the start-up cost estimate. The MSC Director will supply your library with two cost estimates: a start-up and an ongoing cost estimate.

The MSC is a bargain if you compare the costs of being a MSC library with running your own system. The initial and ongoing out-of-pocket and capital costs, combined with the time it takes to run a local system, and the value of librarians' time spent on computers instead of users, all add together to make owning your own system an expensive proposition.

A careful accounting reveals that the costs of being a MSC member are equal to or less than the costs for having a standalone microcomputer-based catalog and circulation system.

Q: What is the annual cost of remaining a MSC member library?

A: Annual ongoing costs range from \$675 to many times this figure for larger libraries. Contact the MSC Director for an estimate of your library's anticipated costs. MSC membership requires enrollment in OCLC which is an additional annual cost for the library if they are not already enrolled.

All libraries pay as little as possible, given the costs of running the MSC. Libraries with larger collections, more users and higher yearly circulations pay more than libraries with smaller title, user and circulation counts. The smallest libraries receive an additional title, patron and cost share break. Our intent is to use a measure that equitably distributes the consortium's annual costs among MSC libraries, based on the record counts from the system on March 1, each year.

Q: What are the consortium's typical ongoing costs, and how much will they be in future years?

A: The consortium's typical ongoing costs include SirsiDynix software support, e-Library content, Director's Station licensing, hardware maintenance, test server support, authority maintenance, catalog cleanup, server room location costs, server replacement fund, training, meeting and conference costs and half the cost of the MSC assistant position. The total shared costs for FY09 are \$219,761. Ongoing costs can be expected to increase by approximately 5% yearly.

Q: How is the ongoing cost figured?

A: A library's individual contribution to the ongoing costs of the MSC is determined by group consensus; every library has an equal vote. MSC's primary concern is to keep prices fair and affordable for all participating libraries (big and small, but taking special care to keep smaller libraries enfranchised), while meeting its financial obligations.

The MSC ongoing cost formula is based on four measures. Those measures are: title (30%), circulation (10%) and patron (30%) counts that come directly from the system. The remaining 30% is divided equally among libraries. Title, user and circulation record counts are done by system administrators on March 1 each year in order to create the next fiscal year's ongoing cost formula. Member libraries are invoiced by June of each year. The ongoing cost for libraries joining the MSC in the previous fiscal year is pro-rated the first year, based on the month their library policy was created in the system.

The following breaks are included:

- i. Title record break – libraries with under 10,000 titles records receive a 5,000 title break
- ii. Patron record break – libraries with under 3,000 patron records will not be charged for patron records

- iii. Equal share of 30% - libraries with under 8,000 title records AND under 1,000 patron records will pay a lower percentage that equals 1% of the 30%. The other libraries share the remaining balance equally.

The price structure strives to provide all libraries with a good deal, but takes exceptional care that it doesn't price large, medium or small libraries out of the catalog. It is a delicate balance that is annually reexamined by the group.

Q: How is the MSC staffed?

A: Federal funds pay for the MSC Director position and the Information Specialist position. The MSL Commission has agreed to split the cost of an additional position with the MSC membership. That position is the MSC Systems Support Technician. This person provides training and support to existing members, and has primary responsibility for adding new MSC members.

Staff from member libraries often work with one-another to solve problems, and on occasion, train other librarians. While they are not MSC or State Library paid staff, their contributions are a vital part of the mix.

Q: Can libraries form sub-groups within the MSC?

A: Yes. Public libraries with branches present a system-wide catalog to their users. Flathead-area libraries present a multi-type 'visage' to Kalispell library users. School and agency libraries have the option of displaying their district's holdings as their default catalog.

Eleven libraries are part of the "MSC Partner" sub-group and another eight are part of the "MSC 4 Rivers" sub-group and four others make up the BridgerNet sub-group. These sub-groups share books and patrons, and stitch their partnership together with the MSC and delivery services. The Partners and BridgerNet groups also offer floating collections of new fiction, popular fiction, audio and video recordings to their patrons. These items remain on the receiving library's shelf until needed elsewhere, giving the local libraries a "new" set of materials to offer their users on a rotating basis. This has made their patrons very happy.

Q: Need we join the MSC Partners, MSC 4 Rivers, or BridgerNet libraries when we join the MSC? Can we join these libraries later?

A: You need not join a sub-group when you join the MSC. If you decide you wish to join a group or groups later, your library must explore this first with the sub-group. (Libraries are encouraged to inquire about joining the MSC Partner or MSC 4 Rivers group, but they should know that there are circulation-policy and significant logistical details that must be worked out beforehand.)

Q: Can my library customize the public Web view of the MSC catalog?

A: The MSC catalog is available to anyone, anywhere, anytime, through internet access and a web browser. Our desire to customize the catalog to your library's unique needs and preferences is tempered by finite staff resources and the capabilities and limitations of the SirsiDynix Unicorn application.

The “e-Library” range of interfaces (ibistro, iLink and future portal solutions) is the web interface available to your users. Their friendly Amazon-like web interfaces include content (such as book jackets, table of contents, excerpts, and book reviews). This content is licensed from Syndetic Solutions, Inc., and your library’s share of this consortium-wide cost is part of your ongoing expenses.

Some of the look-and-feel of the MSC system can be customized for your library; other aspects are determined by consortium-related requirements and cannot be changed to meet your library’s needs.

Q: What data can I migrate from my existing system?

A: Bibliographic and item level data migrates well if it is in standard MARC format. Patron information can be migrated. Some libraries use this opportunity to reregister their patrons in the new system. Patron data in standard flat-text files from student-data or similar systems can usually be migrated. Circulation, serials control and acquisitions data is problematic to migrate and we do not attempt to migrate these types of data.

Selected libraries will begin a three to six month process of adding their records to the MSC. This process will include training timed to meet the needs of new libraries coming online. Within three to five months, selected libraries’ catalogs will typically be available over the Web, and libraries will begin to circulate items using the MSC system.

Q: Can we use the MSC to build our bibliographic and patron data files? We have no electronic data files; instead we use a card catalog.

A: Yes, the MSC is a great tool to use to create an electronic duplicate of your card catalog. We can help you estimate how long it might take to get the job done. Libraries not migrating bibliographic data are required to enter 80% of circulating collection no later than one year after joining the MSC.

Q: Why is a collection management policy required?

A: Collection management policies are a prerequisite to maintaining a useful collection. Accordingly, the Montana State Library Commission requires grant seeking libraries to have a collection management policy in place and on file at the Montana State Library.

For the purposes of this year’s application process, collection management policies must be received and approved, or received and under review, by the State Library.

APPLICATION

Montana Shared Catalog Start-up Assistance Program

Application Deadline: February 18, 2009, 5:00 PM MST (Complete application must be physically received at MSL on or before this deadline).

Instructions

- Use the forms provided, answer each question in context and as it is posed on the form, and answer each question completely. Failure to do so makes it difficult to score the application and therefore will disqualify the application.
- Attach supplemental pages and materials as requested or required
- To be considered, libraries must reply to the affirmative to all questions in the Pre-qualifying Questions section AND select an appropriate Implementation Schedule (end of Library Information Questions section).
- Completed applications must be signed, dated and sent to:

MSC 2009 Startup Assistance Program
Montana State Library
PO Box 201800
Helena, MT 59620-1800

Applications sent via fax will not be accepted as accuracy and completeness cannot be ascertained.

- Additionally, completed applications must include an *electronic copy* in MS/Word format; electronic copies must be supplied by the deadline stated above on either a compact disc (sent to the address above) or e-mailed as an attached document to the MSC Director at msc@mt.gov. Please clearly label any electronic media submitted with the name of your library, school, or organization and indicate that this media is part of your MSC application.

Application Checklist

- ___ Application
 - ___ Paper copy, questions 1 thru 48 attached to Library Information, Pg 14
 - ___ Signature Pg 13, signed and dated
 - ___ Electronic Copy (compact disc or email attachment)
 - ___ Collection Management Policies approved, or submitted and under review, by Montana State Library
 - ___ If applicable: Retrospective Cataloging Plan, signed by the Librarian and the Board Chair, Principal or equivalent

Signatures

- We certify that this application for the Montana Shared Catalog Start-up Assistance Program is complete and accurate.
- We have attached additional material as requested.

Signature of Librarian or other contact person

Date

Type or print name of Librarian or contact person

Title

Signature of Board Chair, Principal, or equivalent

Questions about your library

1. Library _____
2. Mailing Address _____

3. Contact _____
4. Contact phone _____ E-mail _____
5. Number of branches (in addition to the headquarters library) _____

Questions about your collection and patrons

6. How many titles, not copies, does your library have? _____
7. How many registered borrowers does your library have? _____
8. Is your circulation automated? _____ If so, what is your library automation system & version _____?
9. What percentage of your titles are in your local system? _____
10. What percentage of your borrowers are in your local system? _____
11. Is your library currently an OCLC member? _____
12. Are your holdings in OCLC? (If “yes”, estimate percent) _____
13. Do you wish to migrate your patron records by having them transferred to the MSC electronically, or will you prefer to manually key-in your patron database?

14. Does your library use bar codes? _____

The MSC required barcode standard is:

- Codabar Mod 10
- 14 digit
- Final check-digit
- All numeric
- Starting digit of 2 for users and 3 for items

An example is given here.

What bar code schema does your library use? _____

If your library uses a different barcode format, please be aware that you will have to re-barcode your circulating collection to join the MSC.

Are you requesting funding?

Please check all the sentences below that best describe your library's intentions and situation—

Does your library need financial assistance?

15. _____ My library wants to join the MSC and is applying for financial assistance.
16. _____ My library wants to join the MSC, we are applying for assistance, but will find other funding if we are not selected to receive financial assistance.
17. _____ My library wants to join the MSC, but without financial assistance we will have to wait for funding.
18. _____ My library wants to join the MSC, we have our own funding, and are not applying for financial assistance.

Large, Medium or Smaller Library

19. _____ My library is a Large Library, that is, we have both 100,000 or more bibliographic records, *and* 25,000 or more registered patrons. Start-up costs vary; please contact the MSC Director before **January 23, 2009** msc@mt.gov for an estimate.
20. _____ My library is a Medium Library, that is, we have both 35,000 to 100,000 bibliographic records, *and* 10,000 to 24,999 registered patrons. Start-up costs vary; please contact the MSC Director before **January 23, 2009** msc@mt.gov for an estimate.
21. _____ My library is a 'Smaller Library', that is, we are not a Large or a Medium Library. Start-up costs vary library by library, typically \$1000-\$10,000). Please contact the MSC Director before **January 23, 2009** msc@mt.gov for an estimate.

No automated catalog, no MARC records

22. _____ My library has no bibliographic records, but would create its database within the MSC Symphony catalog using the Workflows interface. I understand my library cannot go live until at least 80% of our bibliographic items are entered into the MSC database. I further agree to enter at least 80% of my library's bibliographic items within the first twelve months, following training and subject to system availability.
23. _____ (If #22 is checked): I have attached a retrospective cataloging plan that enables my library to meet the twelve month requirement for entering my bibliographic items in the catalog. This plan has been signed by the Librarian and the Board Chair, Principal or equivalent.
24. _____ MY LIBRARY REQUESTS THE IMPLEMENTATION SCHEDULE SELECTED BELOW. The library staff and library board understand that this selection is final and there is not the option to switch to another implementation schedule following our confirmation of acceptance into the MSC.

_____ IMPLEMENTATION SCHEDULE 1 (Schools automatically default to Implementation Schedule 2**)

_____ IMPLEMENTATION SCHEDULE 2 (All schools, unless noted in #25, below.)

_____ IMPLEMENTATION SCHEDULE 3 (Only available for libraries not requesting financial startup assistance)

**25. _____ My library is a school library and I am requesting Implementation Schedule 1. We commit to making available the appropriate school librarian and local system support as requested by MSC system administrators, DataMap and/or SirsiDynix staff through the entire Implementation 1 schedule, including any months the school and/or library is closed. During the entire Implementation 1 schedule, the librarian will be available to respond to all questions from MSC system administrators, DataMap and/or SirsiDynix staff, regarding converting local records and preparing records for the load to the MSC. Local system support will be available if needed to extract records when needed by the conversion vendor and SirsiDynix.

Pre-Qualifying Questions

The following are absolute requirements for joining the MSC catalog.

Your Library Must Agree To Questions 26 – 46, To Become a Member of the Montana Shared Catalog

Please answer the following questions "YES" or "NO".

26._____ I have read and agree to the conditions of the MSC By-Laws:
[http://msl.mt.gov/For Librarians/Montana Shared Catalog/Members/Legal/Bylaws.doc](http://msl.mt.gov/For_Librarians/Montana_Shared_Catalog/Members/Legal/Bylaws.doc).

27._____ I have received and agreed to price quotes received from the MSC Director for start-up costs.

28._____ I have received and understand the cost *estimate* received from the MSC Director for ongoing costs.

Paid to SirsiDynix LSTA Money	Paid to Montana Shared Catalog, own money	Paid to Others, Own money	Total Paid (LSTA Plus own Money)

29._____ My library has a current Collection Management Policy on file at the Montana State Library. This policy has either been approved or has been received and is being reviewed by the State Library. Our policy is signed and scheduled for review. (For more information: Academic, public, institutional or special libraries:

[http://msl.mt.gov/For Librarians/For All Librarians/Collection Management/default.asp](http://msl.mt.gov/For_Librarians/For_All_Librarians/Collection_Management/default.asp)

School media programs: <http://msl.state.mt.us/slr/cmpolsch.html>

30._____ My board, superintendent, or other governing body has reviewed and approved this application. They have reviewed the conditions of the MSC Members Contract and will sign it if we join the MSC.

31._____ My library will work with other MSC libraries toward improving the quality of library materials and services.

32._____ My library will share bibliographic records.

33._____ I understand that when joining the MSC catalog, my library will add its holdings to existing MARC records in the system. In the event that we add unique records, I understand that others will attach their holdings to this new master record.

- 34._____ My library will actively contribute bibliographic records following the accepted best practices of the consortium; I have read and agree to the current version of the MSC Technical Services (Cataloging) Guidelines:
[http://msl.mt.gov/For Librarians/Montana Shared Catalog/Cataloging/CatalogingGuidelines.doc](http://msl.mt.gov/For_Librarians/Montana_Shared_Catalog/Cataloging/CatalogingGuidelines.doc)
- 35._____ I have conferred with the MSC Director and we have agreed that either 1) our bibliographic and user records are of sufficient quality to electronically import into the MSC, or 2) we will by hand rebuild our bibliographic database using the MSC's cataloging functions.
- 36._____ I understand the MSC trains cooperatively; my library will send staff to training and agrees to provide assistance to others.
- 37._____ My library will attend all regularly scheduled membership meetings of the MSC consortium.
- 38._____ My library is an OCLC member, or will become one no later than July 2009 and will remain so while a member of the MSC.
- 39._____ My library has, or will have by April, 2009, a dedicated Internet broadband data communications link to the MSC servers (typically wireless, DSL, ATM, frame relay, or cable). We understand that dial-up Internet access is insufficient and that broadband Internet is an ongoing requirement. My library is responsible for securing and maintaining adequate data communications.
- 40._____ We have or will have a stable local area network (LAN), with sufficient capacity for current and, we anticipate, increased needs engendered by joining the MSC.
- 41._____ My library has or will have at least one catalog workstation for patrons.
- 42._____ We have or will have at least one staff workstation to circulate books, catalog items, print notices and reports. We are able to support staff workstations running Windows XP or Vista operating systems or the Apple Macintosh operating system. The current version of the staff interface (Java Workflows) runs under Windows XP, Vista or a Macintosh OS X 10.4 or higher version.
- 43._____ We understand that a *required standard bar code reader* will be ordered as part of the start-up costs borne locally. This standardization helps the MSC staff provide you with support. In addition to the required bar code reader, your library may purchase *optional standard receipt printers* and *optional standard report printers*. To receive our support for the receipt and report printers, it is requested you follow the MSC peripheral equipment recommendations.

44._____ My library has, or will begin conversion to the MSC standard bar code format, from the time of our notification of acceptance in the MSC:

- 14 digit “Codabar mod 10”
- Unique library identifier (contact The MSC Director)
- Final check-digit
- All numeric characters
- Prefixes of “2” for patrons, “3” for item

45._____ My library appears in the online Montana Library Directory (http://msl.mt.gov/For_Librarians/Library_Directory/default.asp).

46._____ I understand the MSC will continue to grow and add new libraries.

Essay Questions

Please attach pages as necessary to answer the following questions. Number each response with the corresponding question. Each question must be answered separately. Your response should be as brief as possible. Responses will be scored using the following guidelines:

Questions #47, #48 and #49 will be scored according to the extent that your library meets or works to meet, the following standards and goals:

- ✓ Furthers the process of libraries-helping-libraries
- ✓ Increases collegial interaction between participating librarians
- ✓ Improves the delivery of library materials and services to library users
- ✓ Promotes collaborative and consortium behavior in general
- ✓ Further MSL’s goal of developing libraries through networked services
- ✓ Supports and improves the resource sharing concept of the Montana Shared Catalog.

Question #50 will be scored according to the library’s current and future budget capability to pay MSC and OCLC annual membership costs.

Question #51 will be scored according to the library’s willingness to participate or consider participating in one of the patron sharing groups (Partners, 4-Rivers, BridgerNet) within the MSC.

47. Why do you want to join the Montana Shared Catalog? Does joining the MSC fit into your library’s long-range plan? *30 maximum points*

48. Describe how your library will be an active member of the MSC consortium. Please describe previous cooperative, collaborative, or consortium experiences that you, your staff members, or your library has been a part of. How will your staff participate within the consortium? *30 maximum points*

49. Describe your library's current resource sharing activities. Please include, in addition to a description of your activities, interlibrary borrowing and lending statistics from the last complete fiscal year. *20 maximum points*
50. On-going expenses vary with library collection, user and circulation size. These costs currently range between \$675 to \$40,000 per year. Please describe your library's ability to meet these ongoing costs. Keep in mind the library must also pay OCLC annual enrollment costs. *10 maximum points*
51. Is your library interested in joining a resource sharing group (Partners, 4-Rivers or BridgeNet)? Some members of the MSC share patrons, that is, while patrons remain associated with their home library, these patrons have reciprocal borrowing rights in other participating MSC libraries. For instance, a Flathead County patron can place a hold on a book owned by the Missoula Public Library, and vice versa. Sharing patrons has the effect of hugely increasing your library's collection, as well as the number of customers that you serve. *10 maximum points*
